FINANCIAL REVIEW

For the year ended December 31, 2011, the Group achieved a revenue of \$493.8 million, which is 11.7% greater than the \$442.1 million recorded last year. The increase is mainly attributable to income recognition from the Tomlinson Heights condominium development (on a percentage of completion basis), as well as better performances by the Group's hotels and resorts. The strong cashflow generated from operations resulted in lower Group borrowings and financing costs.

The Group's share of results of associates and jointly controlled entities has also improved significantly from \$11.9 million for year 2010 to \$33.1 million for the year ended December 31, 2011 mainly due to higher profit recognised from The Interlace condominium development at Alexandra Road, Singapore.

Group profit before tax for the year ended December 31, 2011 was

\$91.9 million compared to \$159.1 million last year, but the latter included a non-recurring gain of \$94.9 million on disposal of the Group's interest in a Shanghai joint venture, as well as a fair value adjustment gain on investment properties of \$26.1 million. Excluding these items, group profit before tax for year 2010 would have been \$38.1 million.

After adjusting for income tax and non-controlling interests, Group net profit attributable to shareholders for the year ended December 31, 2011 was \$70.4 million compared to \$140.3 million last year.

RECENT DEVELOPMENTS

During the year under review, the Group continued to market and recognise profits from Tomlinson Heights, an up-market freehold residential development in district 10.

Through joint venture companies, the marketing and development of two unique and iconic landmark residential projects are also making

progress. These projects are The Interlace, an innovatively designed development, sited in an elevated position in the green belt at the Southern Ridges of Singapore, and d'Leedon, a residential development at Farrer Road, designed by Zaha Hadid – a world renowned Pritzker Architecture Prize-winning architect.

The most recent investment by the Group is a 21% effective interest in a resort currently known as Bilila Lodge, situated in The Serengeti National Park of Tanzania. Bilila Lodge is a luxury safari lodge comprising seventy-seven keys with 5 star services encompassing full service restaurants, spa, gymnasium and other recreational facilities. Bilila Lodge will be re-developed as a Four Seasons Safari Lodge.

PROSPECTS

The outlook for the tourism industry in Singapore and the region remains positive, although the uncertain global economic and political conditions continue to pose challenges.

On the property front, the series of market cooling measures introduced by the Singapore government have taken effect by containing property prices and transaction volumes. The Singapore property market sentiment is expected to remain cautious in the short term.

DIVIDEND

The Board of Directors has recommended a first and final one-tier tax exempt cash dividend of 2 cents per ordinary share, and a special dividend of 3 cents per ordinary share for the year ended December 31, 2011.

On behalf of the Board, I would like to extend our appreciation to our shareholders, customers, bankers, business associates and staff for their invaluable support and contribution throughout the year.

HOTELS

BUSINESS REVIEW

HOTELS

Over the years, we have successfully established ourselves as a hotelier with a diverse portfolio of luxurious and high-end hotels, spanning across the continents and 11 countries.

The year 2011 was no exception.

Newly acquired last year, our Mandarin Oriental Hotel Prague won the prestigious Condé Nast Traveller 2011 Readers' Choice award for Best Hotel in Northern Europe and was 2nd in Travel + Leisure 2010 World's Best Hotels.

Apart from its excellent location in the heart of Malá Strana, Prague's oldest district, Mandarin Oriental Hotel Prague exhibits deep-rooted culture and history with its original Baroque, Gothic and Renaissance architectural features. Being once a monastery with origins dating back to the 14th Century, Mandarin Oriental Hotel Prague offers visitors a unique and tranquil retreat that is just minutes away from the city.

The Wall Street Journal aptly described Mandarin Oriental Hotel Prague as "a mix of fine location, striking period architecture and stylish contemporary design."

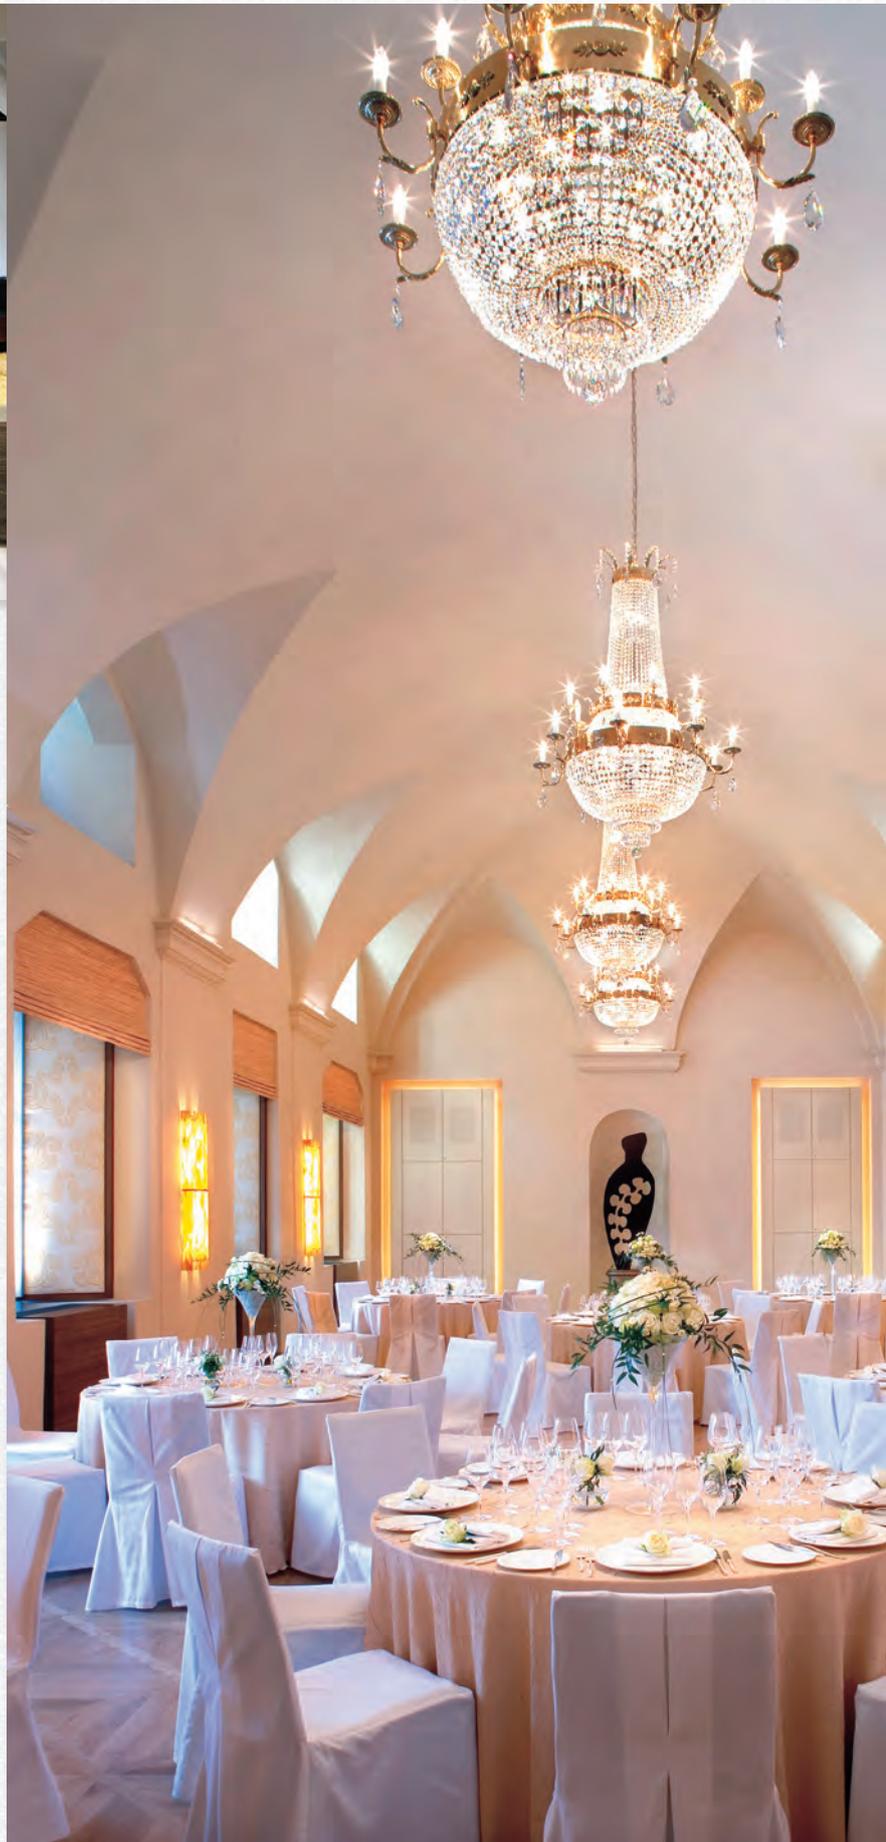

Our Four Seasons chain of hotels and resorts performed well. Four Seasons Resort Maldives at Kuda Huraa garnered the top award at the Condé Nast Traveller 14th annual Readers' Travel Awards: The Best of the Best in the World's Top 100, after being named Best Overseas Leisure Hotel in the Middle East, Africa & Indian Ocean. This is testimonial to our Kuda Huraa resort's continuous efforts in providing a world-class experience for the seasoned world traveller.

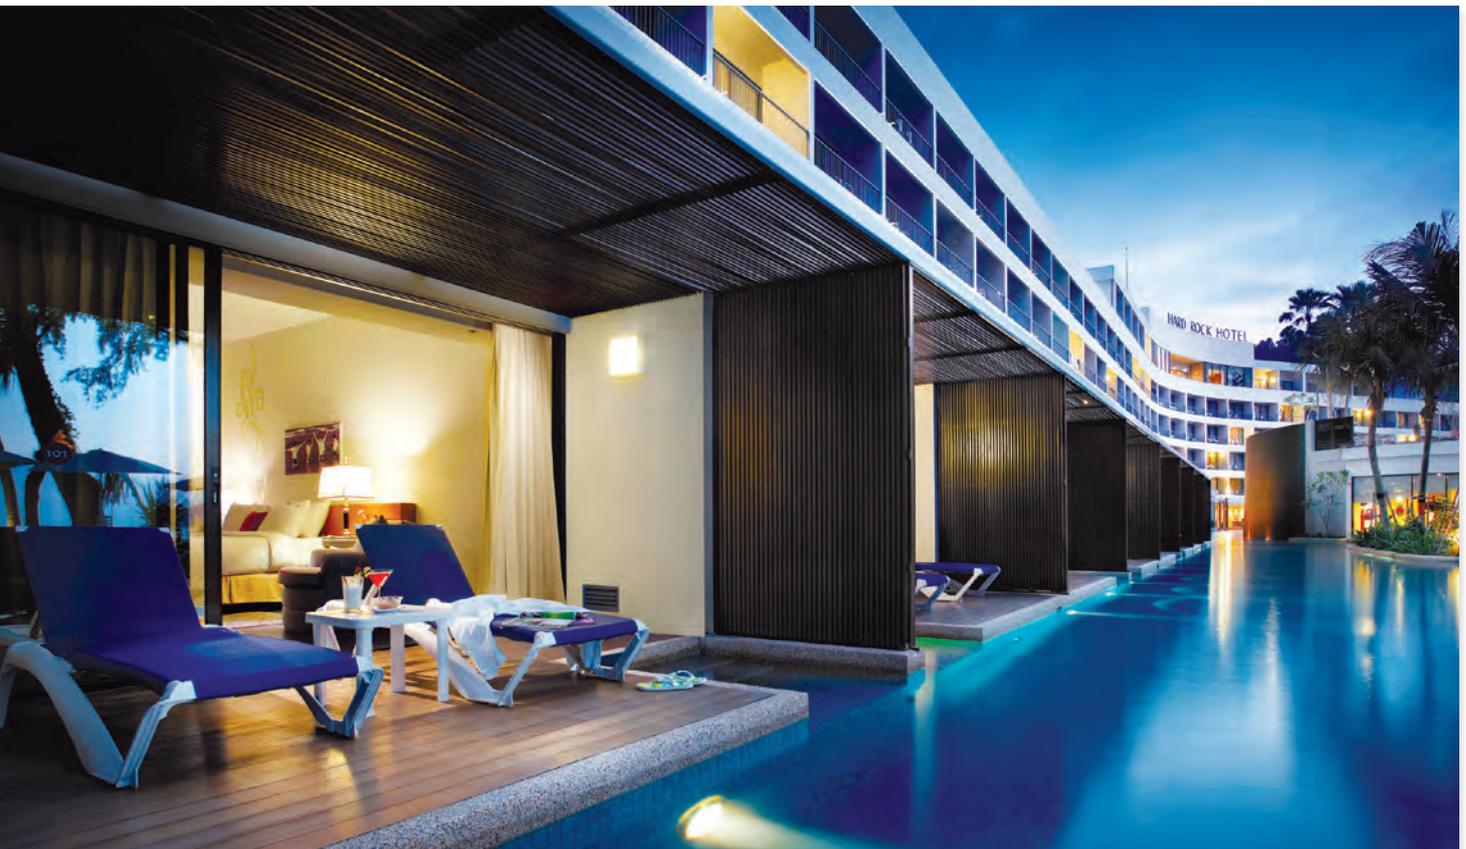

Gearing up to make 2012 its best year yet, the resort continues to provide new experiences by launching a new Marine Discovery Centre, a green turtle conservation and adoption program and an exciting new Night Spa concept.

UNESCO declared Baa Atoll, which is home to our Four Seasons Resort Maldives at Landaa Giraavaru, a World Biosphere Reserve. The resort was rated the best resort in the Maldives in the previous year's Readers' Travel Awards, while, Four Seasons Bali at Sayan came in 2nd in Condé Nast Traveller 2011 Top Resorts in Asia.

A total of 67 villas, each resembling private residences positioned dramatically down a forested hill and offering spectacular views of the beach and turquoise sea below, glimpsed through lush greenery and offering intimate privacy; these are just some unique winning characteristics of our Four Seasons Resort Seychelles. At the 6th Annual Hospitality Design Awards it won 'Best Overall Resort Design' and 'Best in Show'.

Over in Bhutan, our exotic Uma Paro property continues to establish itself as one of Bhutan's 'must-visit' iconic sites to the adventurer traveller; offering a breath-taking view of the magnificent snow-tipped Jomolhari mountain.

With Singapore enjoying a record high of over 13 million tourists, mainly contributed by iconic events such as the Singapore Formula 1 Grand Prix, the Integrated Resorts and major conferences and meetings, our Singapore hotels namely, Hilton, Four Seasons Hotel and Concorde Hotel enjoyed a very robust performance.

Our Hard Rock Hotels in Bali and Penang continued to fascinate guests with a rock-inspired, musically themed atmosphere. Hard Rock Hotel Bali won TripAdvisor 2012 Travellers' Choice Award in the Top 25 Trendiest Hotels in Indonesia category. Hard

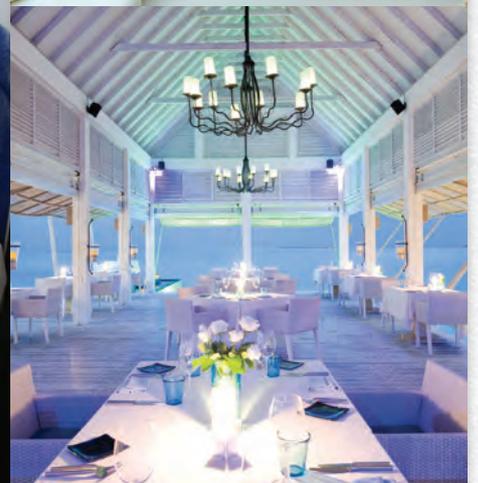

Rock Penang won the 2011 World Luxury Hotel Awards as the "Country Winner: Luxury Beach Resort".

Hard Rock Hotel Pattaya completed its 15 months of upgrading work and its list of new amenities, restaurants, bars and services all add-up to elevate the renewed hotel into the list of must-see destinations in Pattaya.

The latest acquisition to our portfolio is the prestigious holiday resort – Bilila Lodge; strategically nestled in the heart of The Serengeti National Park in Tanzania, a UNESCO World Heritage Site and one of the world's most romantic holiday destinations. It will soon be launched as a Four Seasons Safari Lodge, comprising of 60 rooms, 12 suites and 5 villas, where every facet of the resort allows guests to enjoy the finest comforts such as infinity pools, spas and butler services, while experiencing

the natural wonder and the breathtaking views of the Serengeti and its endless plains.

Today, our hotel division consists of 24 luxurious resorts and hotels, each strategically located in prime districts in Singapore, Malaysia, Thailand, Indonesia, Bhutan, Maldives, Seychelles, Vanuatu, the United States, Czech Republic and Tanzania. They continue to operate under the management of world-renowned and prestigious hospitality brands such as Four Seasons, Hilton International, Como Hotels, InterContinental Hotels Group and the Mandarin Oriental Hotels Group. In addition, HPL also manages its own portfolio of hotels under the well-established Concorde Hotels and Hard Rock Hotels.

PROPERTIES

BUSINESS REVIEW

PROPERTIES

The property division did well for the year 2011 and continued to position us as a niche property developer of prime residential properties in Singapore and Asia.

Tomlinson Heights, a 36-storey freehold residential development in prime district 10, Singapore, is well received by home buyers seeking tranquility with all the convenience of city living.

Strategically located within close proximity to Orchard Road as well as the Singapore Botanic Gardens, the development is designed for tropical living comfort, with well planned orientation of each residence that minimizes heat from the sun and maximizing the unobstructed view of the city.

d'Leedon, a residential development in collaboration with CapitaLand, is the first condominium in Singapore designed by Pritzker Architecture Prize winner, Zaha Hadid. d'Leedon's seven 36-storey high residential towers span across an 840,049 square feet district 10 site, offering panoramic views of Singapore's skyline.

Another of our joint venture projects with CapitaLand is The Interlace condominium. Designed by Ole Scheeren, partner of the Office for Metropolitan Architecture (OMA), The Interlace breaks away from the standard typology of residential developments in Singapore which comprises of a cluster of isolated, vertical towers. Instead, the design for The Interlace explores a different approach to tropical living with

an expansive and interconnected network of communal spaces with the natural environment.

Our Bangkok property – The Met condominium continues to benchmark itself as a development with multiple international awards. It has won 11 awards since 2006 from various prestigious organisations, with the latest being the Green Good Design 2011, The World’s Leading Sustainable Design. It also bagged the major Jorn Utzon Award for International Architecture at the 2010 Australian Institute of Architects National Architecture Awards and World’s 5 Best High-rise Building award at The International High-rise Award in Frankfurt.

Located at the heart of Bangkok, the 66 storeys high condominium provides all apartments with cross ventilation and full exposure to light and views. In addition, there are outdoor living areas, planters and sky gardens creating dramatic yet human scaled external spaces at a high level.

In Hong Kong, we have a 20% stake in The Westminster Terrace, a 39-storey residential building above Castle Peak Road. The Westminster

Terrace which recently won Hong Kong's The Best Architectural Design Property Award distinguishes itself by placing an emphasis on design that contributes to residents' quality of life. The development overlooks the Rambler and Ma Wan channels and has views of the Tsing Ma and Ting Kau bridges.

On the commercial front, we own shop units at Concorde Shopping Mall as well as Forum the Shopping Mall which showcases top lifestyle

labels including Tsumori Chisato and Emporio Armani.

Also on our list of commercial assets is the iconic Derry and Toms Building in London – a mixed-use development at 99-121 Kensington High Street, an office building at Derry Street and a residential building at Kensington Square.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Hotel Properties Limited (the "Company") and its subsidiaries (the "Group") which comprise the statements of financial position of the Group and the Company as at December 31, 2011, and the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 25 to 76.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act (the "Act") and Singapore Financial Reporting Standards and for devising and maintaining a system of internal accounting controls sufficient to provide reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at December 31, 2011, and of the results, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

1. GENERAL

The Company (Registration No. 198000348Z) is incorporated in the Republic of Singapore with its principal place of business and registered office at 50 Cuscaden Road, #08-01 HPL House, Singapore 249724. The principal place of business for the hotel operations of Hilton Singapore is at 581 Orchard Road, Singapore 238883. The Company is listed on the Singapore Exchange Securities Trading Limited. The financial statements are expressed in Singapore dollars.

The principal activities of the Company are those of a hotelier and an investment holding company. The principal activities of subsidiaries, significant associates and jointly controlled entities are described in Notes 35, 36 and 37 respectively to the financial statements.

The consolidated financial statements of the Group and statement of financial position and statement of changes in equity of the Company for the year ended December 31, 2011 were authorised for issue by the Board of Directors on March 19, 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING - The financial statements are prepared in accordance with the historical cost convention, except as disclosed in the accounting policies below, and drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards ("FRS").

ADOPTION OF NEW AND REVISED STANDARDS - In the current financial year, the Group has adopted all the new and revised FRSs and Interpretations of FRS ("INT FRS") that are relevant to its operations and effective for annual periods beginning on or after January 1, 2011. The adoption of these new/revised FRSs and INT FRSs does not result in changes to the Group's and Company's accounting policies except as disclosed below:

FRS 24 (Revised) *Related Party Disclosures*

FRS 24 (Revised) is effective for annual periods beginning on or after January 1, 2011. The revised Standard clarifies the definition of a related party to the reporting entity. In addition, the Group is required to disclose commitments between itself and its related parties.

INT FRS 115 *Agreements for Construction of Real Estate*

INT FRS 115 was issued with an accompanying note that explains the application of the Interpretation to property development sales in Singapore by considering the Singapore legal framework. INT FRS 115 clarifies when revenue and related expenses from a sale of real estate unit should be recognised if an agreement between a developer and a buyer is reached before the construction of real estate is completed. INT FRS 115 determines that contracts which do not classify as construction contracts in accordance with FRS 11 *Construction Contracts* can only be accounted for using the percentage of completion ("POC") method if the entity continuously transfers to the buyer control and the significant risks and rewards of ownership of the work in progress in its current state as construction progresses.

Upon adoption of INT FRS 115, the Group continues to use the POC method to account for its Singapore projects. The Group's overseas projects, however, are accounted for using the completion of construction ("COC") method after taking into consideration the legal framework and industry practices in those countries in which the Group operates.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

The adoption of the above FRSs and INT FRSs does not have any significant effect on the amounts reported for the current or prior years.

At the date of authorisation of these financial statements, the following FRSs and amendments to FRS that are relevant to the Group and the Company were issued but not effective:

- Amendments to FRS 1 *Presentation of Financial Statements - Amendments relating to Presentation of Items of Other Comprehensive Income*
- Amendments to FRS 12 *Income Tax*
- Amendments to FRS 107 *Financial Instruments: Disclosures – Transfers of Financial Assets*
- FRS 27 (Revised) *Separate Financial Statements*
- FRS 110 *Consolidated Financial Statements*
- FRS 112 *Disclosure of Interests in Other Entities*
- FRS 113 *Fair Value Measurement*

Amendments to FRS 1 *Presentation of Financial Statements - Amendments relating to Presentation of Items of Other Comprehensive Income (“OCI”)*

The amendment on Other Comprehensive Income (“OCI”) presentation will require the Company to present in separate groupings, OCI items that might be recycled i.e., reclassified to profit or loss (e.g. those arising from cash flow hedging, foreign currency translation) and those items that would not be recycled (e.g. revaluation gains on property, plant and equipment under the revaluation model). The tax effects recognised for the OCI items would also be captured in the respective grouping, although there is a choice to present OCI items before tax or net of tax. Changes arising from these amendments to FRS 1 will take effect from financial years beginning on or after July 1, 2012, with full retrospective application.

Amendments to FRS 12 *Income Tax*

Amendments to FRS 12 are effective for annual periods beginning on or after January 1, 2012. The amendments provide a practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model in FRS 40 *Investment Property*. The amendments introduce a presumption that an investment property is recovered entirely through sale unless rebutted. The Group’s deferred tax liabilities relating to changes in fair values of its investment properties is disclosed in Note 24 to the financial statements.

Amendments to FRS 107 *Financial Instruments: Disclosures – Transfers of Financial Assets*

The amendments to FRS 107 increase the disclosure requirements for transactions involving transfers of financial assets. These amendments are intended to provide greater transparency around risk exposures when a financial asset is transferred but the transferor retains some level of continuing exposure in the asset. The amendments also require disclosures where transfers of financial assets are not evenly distributed throughout the period. Amendments to FRS 107 will be effective for annual periods beginning on or after July 1, 2011.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

FRS 27 (Revised) - *Separate Financial Statements* and FRS 110 *Consolidated Financial Statements*

FRS 110 replaces the control assessment criteria and consolidation requirements currently in FRS 27 and INT FRS 12 *Consolidation - Special Purpose Entities*.

FRS 110 defines the principle of control and establishes control as the basis for determining which entities are consolidated in the consolidated financial statements. It also provides more extensive application guidance on assessing control based on voting rights or other contractual rights. FRS 27 remains as a standard applicable only to separate financial statements. FRS 110 will take effect from financial years beginning on or after January 1, 2013, with full retrospective application.

FRS 112 *Disclosure of Interests in Other Entities*

FRS 112, which will take effect from financial years beginning on or after January 1, 2013, requires an entity to provide more extensive disclosures regarding the nature of and risks associated with its interest in subsidiaries, associates, joint arrangements and unconsolidated structured entities.

FRS 113 *Fair Value Measurement*

FRS 113 is a single new Standard that applies to both financial and non-financial items. It replaces the guidance on fair value measurement and related disclosures in other Standards, with the exception of measurement dealt with under FRS 102 *Share-based Payment*, FRS 17 *Leases*, net realisable value in FRS 2 *Inventories* and value-in-use in FRS 36 *Impairment of Assets*. FRS 113 provides a common fair value definition and hierarchy applicable to the fair value measurement of assets, liabilities, and an entity's own equity instruments within its scope. FRS 113 will be effective prospectively from annual periods beginning on or after January 1, 2013. Comparative information is not required for periods before initial application.

Management is currently evaluating the impact of these FRSs and amendments.

BASIS OF CONSOLIDATION - The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies used in line with those used by other members of the Group.

All significant intra-group transactions and balances are eliminated on consolidation.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. The interest of non-controlling shareholders may be initially measured (at date of original business combination) either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

In the Company's financial statements, investments in subsidiaries, associates and jointly controlled entities are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

BUSINESS COMBINATION – Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The cost of each acquisition is measured as the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed by the Group, and any equity interests issued by the Group, in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). All other subsequent adjustments are recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the FRS are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 12 *Income Taxes* and FRS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with FRS 102 *Share-based Payment*; and
- assets (or disposal groups) that are classified as held for sale in accordance with FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date – and is subject to a maximum of one year from acquisition date.

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

FINANCIAL INSTRUMENTS – Financial assets and financial liabilities are recognised on the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets

Investments are recognised and de-recognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at fair value, and in the case of available-for-sale investments, directly attributable transaction costs are also included.

Investments are classified as either investments held-for-trading or as available-for-sale, and are measured at subsequent reporting dates at fair value. Where securities are held for trading purposes, gains and losses arising from changes in fair value are included in profit or loss for the period. For available-for-sale investments, gains and losses arising from changes in fair value are recognised in other comprehensive income, until the investment is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in other comprehensive income is reclassified to profit or loss. Impairment losses recognised in profit or loss for equity investments classified as available-for-sale are not subsequently reversed through profit or loss.

Trade and other receivables and amount due from subsidiaries, associates and jointly controlled entities are initially measured at fair value, and are subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost. Appropriate allowances for estimated irrecoverable amounts are recognised in profit or loss when there is objective evidence that the asset is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

Cash and cash equivalents comprise cash on hand, demand deposits (net of deposits pledged), bank overdrafts and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities

Trade and other payables and amount due to subsidiaries and associates are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Interest-bearing bank loans are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Derivative financial instruments and hedge accounting

The Group uses derivative financial instruments such as interest rate swaps to hedge its risks associated with interest rate fluctuations. The Group maintains natural hedges, whenever possible, by borrowing in currencies that match the future revenue stream to be generated from its investments.

The Group does not use derivative financial instruments for speculative purposes.

Derivative financial instruments are initially measured at fair value on the contracted date, and are remeasured to fair value at subsequent reporting dates. Changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and the ineffective portion is recognised directly in profit or loss. Changes in fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in profit or loss as they arise.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and hedged item. On an ongoing basis, the Group reviews the hedging relationship for effectiveness.

Hedging derivatives is classified as a non-current asset or a non-current liability if the remaining maturity of the hedge relationship is more than 12 months and as a current asset or a current liability if the remaining maturity of the hedge relationship is less than 12 months.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time, the net cumulative gain or loss on the hedging instrument previously recognised in other comprehensive income is reclassified to profit or loss for the period.

INVENTORIES - Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the moving average/first-in first-out method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

DEVELOPMENT PROPERTIES - Development properties for sale are stated at cost, which include cost of land and construction, related overhead expenditure and borrowing costs incurred during the period of construction.

Revenue and costs are recognised based on the percentage of completion method when the transfer of significant risks and rewards of ownership occurs on a continuous transfer basis as construction progresses. Under the percentage of completion method, profits are recognised by reference to the stage of completion of the development activity at the end of the reporting period based on survey of work completed at the end of each reporting period performed by independent qualified surveyors. Profits are recognised only in respect of properties with finalised sales agreements. When losses are expected, full provision is made in the financial statements after adequate consideration has been made for estimated costs to completion. Developments are considered complete upon the issue of temporary occupation permits.

Revenue and cost are recognised based on the completion of construction method when the transfer of significant risks and rewards of ownership coincides with the time when the property is completed or when the development units are delivered to the purchasers.

COMPLETED PROPERTIES HELD FOR SALE - Completed properties held for sale are stated at the lower of cost and net realisable value. Cost is calculated using the specific identification method. Net realisable value represents the estimated selling price less all estimated costs to be incurred in the marketing and selling.

ASSOCIATES AND JOINTLY CONTROLLED ENTITIES - An associate is an enterprise over which the Group has significant influence and that is neither a subsidiary nor an interest in a jointly controlled entity. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. A jointly controlled entity is an entity over whose activities the Group has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions.

The results and assets and liabilities of associates and jointly controlled entities (collectively referred to as "equity accounted investees") are incorporated in these financial statements using the equity method of accounting. Under the equity method, investments in equity accounted investees are carried in consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the equity accounted investees, less any impairment in the value of the investments. Losses of an investee in excess of the Group's interest in that investee (which includes any long-term interests that, in substance, form part of the Group's net investment in the investee) are not recognised, unless the Group has incurred legal or constructive obligations or made payments on behalf of the investee.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the equity accounted investees recognised at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

Where a Group entity transacts with an equity accounted investee of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant equity accounted investees.

The gain or loss arising on the disposal of an equity accounted investee of the Group is determined as the difference between the sales proceeds and its net carrying amount and is recognised in profit or loss. Amounts previously recognised in other comprehensive income in relation to the equity accounted investee are reclassified from equity to profit or loss (as a reclassification adjustment) upon disposal.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

PROPERTY, PLANT AND EQUIPMENT - Property, plant and equipment are stated at cost or valuation, less accumulated depreciation and any accumulated impairment loss where the recoverable amount of the asset is estimated to be lower than its carrying amount.

Any revaluation increase arising on the revaluation of freehold land and long-term leasehold land is recognised in other comprehensive income and accumulated in asset revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged to profit or loss. A decrease in carrying amount arising on the revaluation of freehold land and long-term leasehold land is charged to profit or loss to the extent that it exceeds the balance, if any, held in the asset revaluation reserve relating to a previous revaluation of that asset.

Properties in the course of construction are carried at cost, less any recognised impairment loss. Cost includes professional fees, and for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Operating equipment is written off based on periodic physical inventory counts. Depreciation is charged so as to write off the cost of assets, other than freehold and long-term leasehold land and construction-in-progress, over their estimated useful lives, using the straight-line method, on the following bases:

Leasehold land and property	- 19 to 89 years
Buildings and improvements	- 2 to 50 years
Plant and equipment, furniture, fixtures and fittings	- 3 to 20 years

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is not provided on freehold and long-term leasehold land and construction-in-progress. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets.

Fully depreciated assets still in use are retained in the financial statements.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in profit or loss. On the sale or retirement of a revalued property, the attributable revaluation surplus remaining in the asset revaluation reserve is transferred directly to retained profits.

INVESTMENT PROPERTIES - Investment properties are held on a long-term basis for investment potential and income. Investment properties are measured initially at their cost, including transaction cost. Subsequent to initial recognition, investment properties are stated at their fair values based on valuation performed by professional valuers on an open market value basis. Gains or losses arising from changes in the fair values of investment properties (net of deferred tax where applicable) are included in profit or loss for the period in which they arise.

INTANGIBLE ASSETS - These comprise goodwill and franchise rights. Franchise rights are reported at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged on a straight-line basis over the estimated useful lives of 20 years. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

IMPAIRMENT OF TANGIBLE AND INTANGIBLE ASSETS EXCLUDING GOODWILL - At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets (excluding goodwill) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

LEASES - Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Group at their fair values at the inception of the lease, or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's accounting policy for borrowing costs.

Rental payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease. Benefits received or receivable as an incentive to enter into an operating lease are also spread over on a straight-line basis over the lease term.

Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

PROVISIONS - Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligations. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation, and is discounted to present value where the effect is material.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

SHARE-BASED PAYMENTS - The Group issues equity-settled share-based payments to certain employees. Equity-settled share-based payments are measured at fair value at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of the shares that will eventually vest. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in Note 25.

REVENUE RECOGNITION - Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts and sales related taxes.

- a) Sales other than revenue from development properties are recognised when all the following conditions are satisfied:
 - the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
 - the amount of revenue can be measured reliably;
 - it is probable that the economic benefits associated with the transaction will flow to the Group; and
 - the costs incurred or to be incurred in respect of the transaction can be measured reliably.
- b) Revenue from development properties is recognised in accordance with the Group's accounting policy on development properties (see above);
- c) Hotel room revenue is recognised based on room occupancy while other hotel revenue are recognised when the goods are delivered or the services are rendered to the customers;
- d) Rental income is recognised on a straight-line basis over the term of the relevant lease;
- e) Management fee income is recognised when services are rendered;
- f) Interest income is accrued on a time proportion basis, by reference to the principal outstanding and at the interest rate applicable; and
- g) Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

BORROWING COSTS - Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

RETIREMENT BENEFIT COSTS - Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

INCOME TAX - Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and respective subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates (and tax laws) that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except where they arise from the initial accounting for a business combination, in which case the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION - The individual financial statements of each entity within the Group are presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position of the Company are presented in Singapore dollars, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rates of exchange prevailing on the date of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in the Group's exchange fluctuation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income and accumulated in exchange fluctuation reserve (attributed to non-controlling interest, as appropriate). Such reserves are reclassified from equity to profit or loss (as a reclassification adjustment) on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with FRSs requires the exercise of judgement, the use of estimates and assumptions concerning the future by management.

The Group on its own or in reliance on third party experts, applies estimates, judgements and assumptions in various areas including the following:

- i) the level of impairment of tangible and intangible assets;
- ii) the determination of fair value of unquoted available-for-sale investments, investment properties and financial derivatives; and
- iii) the assessment of adequacy of provision for income taxes.

These estimates, judgements and assumptions are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The carrying amounts of the above are disclosed in the respective notes to the financial statements.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT

The following table sets out the financial instruments as at the end of the reporting period:

	Group		Company	
	2011 \$'000	2010 \$'000	2011 \$'000	2010 \$'000
Financial assets				
Held-for-trading investments	13,374	1,940	–	–
Advances and receivables (including cash and cash balances)	145,307	205,863	550,219	576,944
Available-for-sale investments	28,342	20,790	–	–
Financial liabilities				
Derivative financial instruments	–	1,207	–	–
Other financial liabilities	1,197,313	1,246,944	669,763	700,334

The main risks arising from the Group's financial instruments are interest rate risk, foreign exchange risk, credit risk, market risk and liquidity risk. The policies for managing each of these risks are summarised below:

Interest rate risk

The Group's exposure to the risk of changes in interest rates relates mainly to its bank borrowings. The Group actively reviews its debt portfolio to achieve the most favourable interest rates available. The Group manages its interest rate exposure by maintaining a prudent mix of fixed and floating rate borrowings. Hedging instruments such as interest rate swaps are also used where appropriate to minimise its exposure to interest rate volatility.

Interest rate sensitivity

The sensitivity analysis below have been determined based on the exposures to interest rates for significant non-derivatives instruments at the end of the reporting period and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period in the case of instruments that have floating rates.

At the end of the reporting period, it is estimated that a 50 basis point change in interest rates would affect the Group's and Company's profit before tax by approximately \$3.1 million and \$Nil respectively (2010: \$2.9 million and \$0.1 million respectively).

Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures primarily with respect to United States dollars, Sterling pounds, Hong Kong dollars, Indonesian rupiah, Thai baht, Chinese renminbi and Australian dollars.

The Group maintains natural hedges, whenever possible, by borrowing in currencies that match the future revenue stream to be generated from its investments.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

At the reporting date, the significant carrying amounts of monetary assets and monetary liabilities denominated in currencies other than the respective Group entities' functional currencies are as follows:

	Group				Company			
	Liabilities		Assets		Liabilities		Assets	
	2011	2010	2011	2010	2011	2010	2011	2010
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
United States dollars	36,804	74,379	22,105	17,217	–	5,247	8	5,334

Hong Kong dollars	3,949	23,613	242	11,338	–	23,613	–	23,622
Indonesian rupiah	6,338	6,050	4,183	2,460	–	–	–	–
Thai baht	–	–	55,762	55,960	–	–	–	–
Chinese renminbi	–	–	36,001	25,460	–	–	–	–
Australian dollars	16,445	16,571	17,029	18,203	–	–	–	–

Foreign currency sensitivity

The sensitivity analysis uses a 10% increase and decrease in the functional currency against the relevant foreign currencies. The sensitivity analysis includes only significant outstanding foreign currency denominated monetary items not designated as hedge and adjusts their translation at the year end for a 10% change in foreign currency rates. The following table details the sensitivity to a 10% increase/decrease in the functional currency against the relevant foreign currencies. If the functional currency strengthens by 10% against the relevant foreign currency, profit before tax and other equity will increase (decrease) by:

	US dollar impact		Sterling pound impact		Hong Kong dollar impact		Indonesian rupiah impact	
	2011	2010	2011	2010	2011	2010	2011	2010

Company						
Profit before tax	–	–	–	–	–	–

If the functional currency weakens by 10% against the relevant foreign currency, profit before tax and other equity will (increase) decrease by the same amounts.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

Credit risk

The Group has a diversified portfolio of businesses and at the end of the reporting period, there was no significant concentration of credit risk with any entity. The Group has guidelines governing the process of granting credit as a service or product provider in its respective segments of business. The Group and the Company have considered the credit quality of the advances and receivables and determined that the amounts are considered recoverable except as disclosed.

The carrying amount of advances and receivables (including cash and cash balances) represents the maximum credit risk exposure for the Group and the Company at the end of the reporting period.

Liquidity risk

The Group actively manages its debt maturity profile, operating cash flows and availability of funding so as to ensure that all refinancing, repayment and funding needs are met. As part of its overall prudent liquidity management, the Group maintains sufficient level of cash or cash convertible investments to meet its working capital requirement. In addition, the Group strives to maintain available banking facilities of a reasonable level to its overall debt position.

Liquidity risk analysis

The following are the expected contractual undiscounted cash flows of financial liabilities, including interest payments:

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

The Group and the Company have provided corporate guarantees of \$68 million (2010: \$34 million) and \$529 million (2010: \$555 million) to financial institutions in respect of credit facilities granted to certain associates and certain subsidiaries respectively at the end of the reporting period. The Group and the Company have also obtained bankers' guarantees as disclosed in Note 22.

The Group's and the Company's financial assets are mainly due on demand or within 1 year.

Market risk

Market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to quoted securities or factors affecting all securities traded in the market.

The Group has invested in various securities. The valuations and liquidity of these investments are subject to market risk.

At the end of the reporting period, it is estimated that a 10% change in equity prices would have an impact on the Group's profit before tax for the year by approximately \$1.3 million (2010: \$0.2 million).

Capital Risk Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholder value.

The total capital of the Group as at the end of the reporting period is represented by the "Equity attributable to owners of the Company" as presented on the statements of financial position.

The Group manages its capital structure and makes adjustment to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives during the years ended December 31, 2011 and December 31, 2010.

Fair values of financial assets and financial liabilities

The carrying amounts of cash and cash balances, trade and other current receivables and payables, provisions and other liabilities approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

The carrying amounts of long-term financial liabilities comprising mainly long-term borrowings approximate their respective fair values as they are based on interest rates that approximate market interest rates.

The fair values of other classes of financial assets and liabilities are determined as follows:

- i) the fair value of financial assets and financial liabilities traded on active liquid markets are determined with reference to quoted market prices;
- ii) the fair value of derivative instruments are determined using marked-to-market valuations available from financial institutions, determined in accordance with generally accepted pricing models, taking into consideration duration of the instruments and quotes for similar instruments; and
- iii) the fair value of unquoted financial instruments are determined in accordance with Note 17.

4. FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2).

Interest on certain overdue trade balances is charged at rates ranging from 14% to 18% (2010: 14% to 18%) per annum on the outstanding balance. Trade receivables are provided for based on estimated irrecoverable amounts from the sale of goods and services, determined by reference to past default experience and objective evidence of impairment which includes ageing of receivables and the financial condition of the debtor.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable. The concentration of credit risk is limited due to the customer base being large and unrelated to one another.

Included in the Group's trade receivables balance are debtors with a carrying amount of \$3.3 million (2010: \$3.5 million) which are past due as at the end of the reporting period for which the Group has not provided as there has not been a significant change in credit quality and the amounts are still considered recoverable. The average age of these receivables are 45 days (2010: 48 days).

The freehold and long-term leasehold land are stated at valuation based on the open market value for existing use as at December 31, 1996 by DTZ Debenham Tie Leung (SEA) Pte Ltd and its associates. The revaluation surplus of the Company and of the Group has been recorded in the asset revaluation reserve. Subsequent to the above one-off revaluation, no further revaluation was done after the adoption of FRS 16 *Property, Plant and Equipment*.

Had the total freehold and long-term leasehold land been carried at historical cost less accumulated depreciation and accumulated impairment losses, their carrying amounts for the Group and Company would have been approximately \$197 million (2010: \$195 million) and \$98 million (2010: \$98 million) respectively.

As at December 31, 2011, certain property, plant and equipment with total carrying amount of \$861 million (2010: \$864 million) were mortgaged to banks to secure credit facilities for the Company and respective subsidiaries of the Group. The carrying amount of the Group's plant and equipment include an amount of \$899,000 (2010: \$1,443,000) held under finance lease.

20. INVESTMENT PROPERTIES

Gross rental income and direct operating expenses arising from investment properties amounted to \$27.8 million (2010: \$27.9 million) and \$8.6 million (2010: \$8.3 million) respectively for the year ended December 31, 2011.

For the year ended December 31, 2011, fair value gain recognised amounted to \$Nil (2010: \$17 million).

Certain investment properties amounting to approximately \$604 million as at December 31, 2011 (2010: \$604 million) were mortgaged to banks to secure credit facilities for the respective subsidiaries of the Group.

The fair values of the investment properties at December 31, 2011 and 2010 have been determined by independent professional valuers based on open market values.

Goodwill acquired in a business combination is allocated at acquisition to the cash generating units (“CGU”) that are expected to benefit from that business combination. The carrying amounts of goodwill attributable to certain investment properties and certain property, plant and equipment are approximately \$Nil (2010: \$0.7 million) and \$8.0 million (2010: \$8.4 million) respectively.

The recoverable amounts of the CGU are determined either from value-in-use calculations or professional valuations on properties held by the CGUs. The key assumptions for the value-in-use calculations are those regarding the discount rates, growth rates and expected changes to revenue and direct costs during the period. Management estimates discount rates using pre-tax rate that reflect current market assessments of the time value of money and the risk specific to the CGUs. The growth rate and changes in revenue and direct costs are based on past practices and expectations of future changes in the market.

The value-in-use calculations use cash flow projections based on financial budgets. Cash flow projections are prepared for the next five years or longer based on estimated growth rates ranging from 0% to 9% (2010: ranged from 0% to 9%). The rates used to discount the forecasted cash flow range from 6% to 12% (2010: 6% to 11%)

25. SHARE CAPITAL AND OPTIONS (cont'd)

Under the Hotel Properties Limited Share Option Scheme 2000 ("Scheme 2000") and the Hotel Properties Employee Share Option Scheme 2010 ("Scheme 2010"), options to subscribe for the Company's ordinary shares may be granted to executives of the Company. The schemes are administered by the Remuneration Committee. The exercise price of the granted options was determined based on the average last business done price for the shares of the Company for the three and five market days preceding the date of grant for Scheme 2000 and Scheme 2010 respectively. The Remuneration Committee may at its discretion fix the exercise price at a discount not exceeding 20% to the above price. The vesting period is 2 years for options granted at a discounted exercise price, and 1 year for options granted without discount. The share options have a validity period of 10 years from the date of grant, unless they have been forfeited prior to that date.

Details of the share options outstanding during the year are as follows:

	Group and Company			
	2011		2010	
	Number of share options	Weighted average exercise price \$	Number of share options	Weighted average exercise price \$
Outstanding at the beginning of the year	7,805,000	2.06	5,620,000	2.17

Outstanding at the end of the year	9,275,000	2.04	7,805,000	2.06
Exercisable at the end of the year	5,455,000	2.16	4,515,000	2.28

The weighted average market price at the date of exercise for share options exercised during the year was \$2.23. The options outstanding at the end of the year have a weighted average remaining contractual life of 6.64 (2010: 6.92) years.

The estimated fair value of the options granted during the year is \$0.70 (2010: \$0.89). The fair value determined using The Black-Scholes pricing model was based on a share price of \$2.35 (2010: \$2.28) at the date of grant, and an expected life of 2 years (2010: 2 years). The risk-free interest rate is based on the yield curve of Singapore Government securities as at grant date. The expected volatility is 46% (2010: 62%) based on historical volatility of the Company's share prices over the previous 2.5 years (2010: 2.5 years).

The Company also has a Hotel Properties Limited Performance Share Plan that is administered by the Remuneration Committee. Fully paid shares are awarded to participants taking into consideration certain performance criteria and vesting period. Details of the performance shares outstanding during the year are as follows:

	Group and Company	
	2011	2010
	Number of performance shares	Number of performance shares

Asset revaluation reserve records the revaluation surplus arising from valuation of properties.

Hedge reserve records the fair value changes on the derivative financial instruments designated as hedging instruments in cash flow hedges that are determined to be an effective hedge.

Option reserve represents the equity-settled share options and performance shares granted to employees. The reserve is made up of the cumulative value of services received from employees recorded on grant of equity-settled share options and performance shares. The expense for services received will be recognised over the vesting period.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

26. OTHER RESERVES (cont'd)

The exchange fluctuation reserve is used to record foreign exchange differences arising from the translation of the financial statements of foreign subsidiaries whose functional currencies are different from that of the Group's presentation currency and exchange differences arising from translation of monetary items that form part of a net investment in a foreign entity.

Other capital reserves include the cumulative fair value changes of available-for-sale financial assets until they are derecognised or impaired, as well as reserve on consolidation which represents the difference between the fair value of the consideration paid and the amount by which the non-controlling interest are reduced during the acquisition of additional interests in common controlled entities.

27. REVENUE

An analysis of the Group's revenue for the year is as follows:

	2011 \$'000	Group 2010 \$'000

29. INCOME TAX EXPENSE (cont'd)

Subject to the agreement with the relevant tax authorities and compliance with certain conditions of the relevant tax legislations, in the respective countries in which the subsidiaries operate, the Group has unrecognised tax losses and capital allowances totaling approximately \$45,025,000 and \$347,000 (2010: \$56,992,000 and \$342,000) respectively which are available for set off against future taxable income of the respective subsidiaries. No deferred tax asset has been recognised in respect of these due to unpredictability of future profit stream. Tax losses approximating \$32,348,000 (2010: \$40,653,000) will expire within the next 5 years.

Group relief:

Subject to the satisfaction of the conditions for group relief, tax losses of \$2,768,000 (2010: \$Nil) arising in the current year are transferred to the Company under the group relief system. In the previous financial year, capital allowances of \$3,216,000 were transferred from the Company under the group relief system. These tax losses and capital allowances are transferred to or from certain subsidiaries of the Group at no consideration.

30. EARNINGS PER SHARE

The calculation of basic earnings per share is based on the Group net profit attributable to owners of the Company of \$70,441,000 (2010: \$140,332,000) divided by the weighted average number of ordinary shares of 505,781,791 (2010: 505,154,150) in issue during the year.

Diluted earnings per share is based on 506,196,605 (2010: 506,611,216) ordinary shares assuming the full exercise of outstanding share options and release of performance shares during the year and adjusted Group earnings of \$70,446,000 (2010: \$140,353,000) after adjusting the weighted average number of ordinary shares to reflect the effect of all potentially dilutive ordinary shares.

Total	50,544	43,692

The tenancy arrangements range from one to six years. Rental income earned during the year is disclosed in Note 27 to the financial statements. Included in the future minimum lease receivable is an amount of \$18,286,000 (2010: \$17,976,000) relating to tenancy arrangements with companies in which certain directors are deemed to have interests.

34. SEGMENT INFORMATION

a) The segment information of the Group is organised into the following reportable segments:

Hotels

These refer mainly to the operations of the hotels and the shopping galleries of the Group as well as the provision of hotel management services. Income is derived mainly from the rental of rooms and shop units, sale of food and beverage and management fee.

Properties

These refer to the rental and sale operations on residential properties and commercial units. Sales and profit from the condominium development projects in Singapore are recognised based on percentage of completion method, and those from overseas projects are recognised based on completion of construction method.

Others

These refer to distribution and retail operations, activities on quoted and unquoted investments and others.

b) The following segment information is prepared on the same basis as the Group's accounting policies described in Note 2:

- i) Segment revenue and expenses are revenue and expenses reported in the Group's income statement that either are directly attributable to a segment or can be allocated on a reasonable basis to a segment.
- ii) Segment revenue and expenses include transfers between business segments. Inter-segment sales are charged at cost plus a percentage profit mark-up. These transfers are eliminated on consolidation. Share of results of associates and jointly controlled entities are allocated as they are specifically attributable to a segment.
- iii) Segment assets are all operating assets that are employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment assets exclude interest-producing assets. Investments in associates and jointly controlled entities are included as segment assets of the Group.
- iv) Segment liabilities are all operating liabilities of a segment and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities exclude interest-bearing liabilities and income tax liabilities.
- v) Segment revenue and non-current assets are analysed based on the location of those assets.

N.A. = Not Applicable

The principal responsibilities of the Board are to:

- approve the broad policies, strategies and financial objectives of the Group and monitor its performance;
- approve major funding proposals, investments, disposals and capital expenditure;
- review the Group's financial performance and authorising announcements issued by the Company;
- oversee the processes for evaluating the adequacy of internal controls and risk management;
- approve the nominations of board directors; and
- assume responsibility for corporate governance and compliance with the Singapore Companies Act and the rules and requirements of regulatory bodies.

Matters which are specifically reserved for the full Board's decisions are those involving material acquisitions and disposals of assets, corporate or financial restructuring, share issuances and dividends. Additionally, the Board delegates certain of its functions to the Committee of Directors, Audit, Nominating and Remuneration Committees.

The Committee of Directors, established in May 1993, comprises three directors, namely Messrs Ong Beng Seng, Christopher Lim Tien Lock and David Fu Kuo Chen. The Committee of Directors is authorised and delegated by the Board to approve and/ or carry into effect certain operational and administrative matters as stipulated in the Regulations of the Committee of Directors.

The Company worked closely with its company secretaries to provide its directors with regular updates on the latest governance and listing policies.

CORPORATE GOVERNANCE REPORT

Principle 2: Board Composition and Balance

The Nominating Committee annually reviews the composition of the Board and independence of each director.

CORPORATE GOVERNANCE REPORT

The Nominating Committee is of the view that the current board comprising nine directors is appropriate in view of the nature and scope of the Group's operations.

Having regard to the depth and breadth of commercial knowledge, management expertise as well as business experience of individual directors, the Nominating Committee is of the view that the current Board comprises persons who, as a group, provide core competencies necessary to govern and manage the Group's affairs.

Principle 3: Role of Chairman and Managing Director

The Company has a separate Chairman and Managing Director. The Chairman is a non-executive and independent director who bears responsibility for the workings of the Board while the Managing Director is the most senior executive in the Company who bears executive responsibility for the management of the Company and Group. The Chairman, Managing Director and Group Executive Director set the board meeting agenda in consultation with the other directors. Both the Chairman and Managing Director are responsible for the adherence by management with Corporate Governance policies as laid down by the Board.

BOARD COMMITTEES

To facilitate effective management, certain functions have been delegated to various Board committees, each with its own terms of reference.

Nominating Committee

Principle 4: Board Membership

Principle 5: Board Performance

The Nominating Committee was formed on November 1, 2002 and comprises three non-executive directors of whom two are independent directors. The Nominating Committee is chaired by Mr. Leslie Mah Kim Loong. Mr. Mah is not associated with the substantial shareholders of the Company. The other members are Mr. Joseph Grimberg and Mr. David Fu Kuo Chen.

The Nominating Committee's role is to establish an objective and transparent process for:

- the appointment or re-appointment of members of the Board and of the various Board committees;
- evaluating and assessing the effectiveness of the Board as a whole, and the contribution by each individual director to the effectiveness of the Board;
- determining the independence of directors; and
- reviewing the multiple board representations of each director individually (if any) to ensure that sufficient time and attention is given to the affairs of the Company.

New directors are appointed by way of board resolutions, after the Nominating Committee has reviewed and nominated them for appointment. Such new directors submit themselves for re-election at the next Annual General Meeting ("AGM") of the Company. Article 80 of the Company's Articles of Association requires at least one third of the Board to retire by rotation at every AGM, except that the Managing Director is not subject to retirement by rotation.

For the purpose of its evaluation of the directors' performance, the Nominating Committee focuses on whether the directors, individually or collectively possesses the background, experience, competencies in finance and management skills critical to the Group's business as well as whether each director, with his special contributions, brings to the Board an independent and objective perspective to enable sound, balanced and well-considered decisions to be made.

CORPORATE GOVERNANCE REPORT

The Nominating Committee conducts an annual review of directors' independence and is of the view that Mr. Joseph Grimberg, Mr. Arthur Tan Keng Hock, Mr. Leslie Mah Kim Loong and Mr. Michael S. Dobbs-Higginson are independent and that no individual or small group of individuals dominate the Board's decision-making process.

Audit Committee

Principle 11: Audit Committee

Principle 12: Internal Controls

The Audit Committee was formed in 1991 and was re-constituted on November 1, 2002 in compliance with the spirit of the Code of Corporate Governance.

The Audit Committee comprises three non-executive directors namely, Mr. Arthur Tan Keng Hock, Mr. Leslie Mah Kim Loong and Mr. Michael S. Dobbs-Higginson, all of whom are independent directors. The Audit Committee is chaired by Mr. Arthur Tan Keng Hock, an independent director, who was an investment banker for over 15 years. The other members of the Audit Committee have many years of experience in accounting, finance and business management.

The Audit Committee performs the following main functions:

- reviews with the external auditor, the audit plan, impact of new, revised or proposed changes in accounting standards and results of their examination and evaluation of accounting controls;
- reviews with the internal auditors, the scope and results of internal audit procedures and their evaluation of the internal control systems;
- reviews the quarterly and full year announcements of the results and financial position of the Company and the Group and the financial statements of the Company and consolidated financial statements of the Group prior to their submission to the Board;
- reviews interested party transactions;
- reviews the co-operation given by the Company's officers to the internal and external auditors; and
- makes recommendations to the Board on the appointment of the internal and external auditors.

The Audit Committee meets the external auditors (without the presence of the Company's management) at least once a year.

The Audit Committee received co-operation from the management and was not obstructed or impeded by management in carrying out its functions during the year. Throughout the year, there was no instance of any suspected misdeed or irregularity, which was likely to have a material impact on the Group's operating results and financial position.

The Audit Committee has full discretion to invite any director or executive officer of the Company to attend its meetings.

The Audit Committee has reviewed the Group's risk management and, based on the audit reports and management controls in place, is satisfied that there are adequate internal controls in the Group.

The Audit Committee has conducted an annual review of all non-audit services by the external auditors to satisfy itself that the nature and extent of such services will not prejudice the independence and objectivity of the auditors.

The Group has complied with Rules 712 and Rule 715 or 716 of the SGX-ST Listing Manual in relation to its auditors.

A Policy on Business Related Conduct has also been put in place by the Audit Committee to provide an independent feedback channel for employees to report any corporate wrongdoings and to ensure appropriate investigation and follow up action on such report, if any.

CORPORATE GOVERNANCE REPORT

Principle 13: Internal Audits

The Audit Committee is tasked to oversee the implementation of an effective system of internal controls as well as putting in place a risk management framework to continually identify, evaluate and manage significant business risks of the Group. The Audit Committee has the mandate to authorise special reviews or investigations, where appropriate, in discharging its responsibility.

The internal audit function is currently outsourced to Eltici e-Risk Pte Ltd which reports directly to the Audit Committee. The internal auditors support the Audit Committee in their role to assess the effectiveness of the Group's overall system of operational and financial controls as well as assist in the implementation of a risk management framework.

The Audit Committee reviews and approves the internal audit plan proposed by the internal auditors. Material non-compliance and internal control weaknesses noted during the internal audits are reported together with the internal auditors' recommendations to the Audit Committee.

Based on the internal controls established and maintained by the Group, work performed by the internal and external auditors, and reviews performed by Management, the Audit Committee and the Board are of the opinion that the Group's internal control are adequate. However, it is of the view that no internal control system can preclude all errors and irregularities, as the system is designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against misstatement or loss.

Remuneration Committee

Principle 7: Procedures for Developing Remuneration Policies

Principle 8: Level and Mix of Remuneration

Principle 9: Disclosure on Remuneration

The Remuneration Committee was formed on November 1, 2002 and comprises three directors, of whom two, including the Chairman, are non-executive and independent directors.

The Remuneration Committee is chaired by Mr. Joseph Grimberg. The other members are Mr. Michael S. Dobbs-Higginson and Mr. Ong Beng Seng. The Board is of the view that it is appropriate for the Group's Managing Director, Mr Ong Beng Seng to remain as a member of the Remuneration Committee as he does not receive monthly remuneration from the Group and is not eligible for grants under the Company's Executive Share Option Scheme and Performance Share Plan.

The Remuneration Committee's principal responsibilities are to:

- review periodically and recommend to the Board an appropriate framework of compensation practices to attract, retain and motivate management staff of the required calibre to manage the Group successfully;
- review and recommend senior management remuneration package and that of the executive directors whose remuneration packages include a variable bonus component which is performance-related, and also stock options and performance shares which have been designed to align their interests with those of the shareholders;
- review the recommendation of the executive directors, for approval of the Board, the directors' fees and such payment as may be payable pursuant to Article 73 of the Company's Articles of Association;
- administer the Hotel Properties Limited Executives' Share Option Scheme which was approved by the shareholders on June 23, 2000 ("Scheme 2000");

CORPORATE GOVERNANCE REPORT

- administer the Hotel Properties Limited Performance Share Plan approved by the shareholders on April 28, 2006 (“HPL PSP”); and
- administer the Hotel Properties Employee Share Option Scheme 2010 which was approved by the shareholders on April 29, 2010 (“Scheme 2010”).

While none of the members of the Remuneration Committee specialises in the area of executive compensation, the Committee is entitled to have access to independent industry data and professional advice if necessary. Moreover, they have unrestricted access to the Company’s records and information so as to enable them to carry out their duties.

The remuneration for executive directors and senior management is structured to link rewards to corporate and individual performance. The remuneration policy for executive directors and senior management staff consists of both a fixed and variable components. The fixed component includes salary and pension fund contributions. The variable component comprises a bonus element share options and performance shares which are performance-based.

Non-executive directors are paid directors’ fees that are based on corporate and individual responsibilities and are subject to approval of the shareholders at the AGM.

The Remuneration Committee recommends the payment of the directors’ fees as set out below, subject to approval by shareholders at the AGM of the Company.

Non-executive directors have no service contracts and their terms are specified in the Articles.

Details of remuneration and benefits of directors for the financial year ended December 31, 2011 are set out below:-

	Fee** %	Salary %	Bonus and Other benefits* %	Total %
Between \$2,000,000 and \$2,250,000				
Christopher Lim Tien Lock	3	35	62	100

Leslie Mah Kim Loong	100	–	–	100
David Fu Kuo Chen	100	–	–	100
William Fu Wei Cheng	100	–	–	100

* exclude share options which are disclosed in the Directors’ Report

** these fees are subject to approval by shareholders as a lump sum at the Annual General Meeting for FY2011

The remuneration of the top 5 key executives (who are not also directors) is not disclosed as the Company believes in maintaining confidentiality of staff remuneration matters and that disclosure of the remuneration of individual executives is disadvantageous to its business interest, given the highly competitive industry conditions.

CORPORATE GOVERNANCE REPORT

There is no employee who is related to a director or the CEO whose remuneration exceeds \$150,000 in the Group's employment for the financial year ended 31 December 2011.

The Remuneration Committee administers Scheme 2000 and Scheme 2010 in accordance with the rules as approved by shareholders. Executive directors (except Mr. Ong Beng Seng who is also a deemed substantial shareholder of the Company) were granted share options under both Schemes but not non-executive directors. The Company holds the view that, at this point in its development, the interests of maintaining the objectivity and independence of the non-executive directors is best served by a cash-based remuneration package. The objectives of Scheme 2000 and Scheme 2010 are to motivate the executives of the Group to optimise their performance standards and efficiency and to retain key executives whose contributions are important to the long term growth and profitability of the Group.

In addition to Scheme 2000 and Scheme 2010, the shareholders have approved the HPL PSP on April 28, 2006 to give the Company greater flexibility to align the interests of the employees, especially key executives, with those of shareholders. It is also intended that the HPL PSP compliments Scheme 2000 and Scheme 2010 in its continuing effects to reward, retain and motivate employees to achieve superior performance which creates and enhances economic value for shareholders.

Other details of the Scheme 2000, Scheme 2010 and HPL PSP are found in the Directors' Report.

Principle 6: Access to Information

In order to ensure that the Board is able to fulfill its responsibilities, management provides the Board with quarterly financial statements and all relevant information on material events and transactions as and when they arise. Whenever necessary, senior management staff are invited to attend Board meetings to answer queries and provide detailed insights into their areas of responsibility.

Where a decision has to be made before a Board meeting, a directors' resolution is circulated in accordance with the Articles of Association of the Company and the directors are provided with all necessary information to enable them to make informed decisions.

In addition, directors have separate and independent access to the advice and services of the company secretary, who is responsible to the Board for ensuring board procedures are followed and advising on the implementation of compliance requirements pursuant to the relevant statutes and regulations. The company secretary attends all board and committee meetings. The appointment and removal of the Company Secretary is a matter for the Board as a whole.

Each director also has the right to seek independent legal and other professional advice, at the Company's expense, concerning any aspect of the Group's operations or undertakings in order to fulfill their roles and responsibilities as directors.

COMMUNICATION WITH SHAREHOLDERS

Principle 10: Accountability and Audit

Principle 14: Communication with Shareholders

Principle 15: Greater Shareholder Participation

The Company does not practice selective disclosure. Price sensitive announcements including quarterly and full-year results are released through SGXNET and subsequently posted on the Company's website. All shareholders of the Company receive the Annual Report and Notice of AGM which can be accessed from the Company's website. At AGMs, shareholders are given the opportunity to air their views and ask questions regarding the Group and its businesses.

CORPORATE GOVERNANCE REPORT

The Articles of Association of the Company allow a member of the Company to appoint one or two proxies to attend and vote on behalf of the member.

Interested Person Transactions (“IPT”)

The Company has adopted an internal policy in respect of any transactions with interested persons and has set out procedures for review and approval of the Company’s interested person transactions. Details of the significant interested person transactions for the financial year ended 31 December 2011 are as follows:

Name of Interested Person	Aggregate value of all IPT during the financial year ended December 31, 2011 (excluding transactions below \$100,000 and transactions conducted under the shareholders’ mandate pursuant to Rule 920)	Aggregate value of all IPT conducted under shareholders’ mandate pursuant to Rule 920 (excluding transactions below \$100,000)
	\$’000	\$’000
*Associates of Mr Ong Beng Seng / Mr David Fu Kuo Chen		
Rental income	13,392	–
Management fee expense	924	–
Equity contribution	6,489	–

All the above interested person transactions were done on commercial terms.

Save as disclosed, there were no other material contracts entered into by the Company and its subsidiaries involving the interest of the director, chief executive officer or controlling shareholder and his/their associates.

Note:

“Associate” in relation to a director, chief executive officer or controlling shareholder means:

- his immediate family;
- the trustees of any trust of which he or his immediate family is a beneficiary or, in the case of a discretionary trust, is a discretionary object; and
- any company in which he and his immediate family together (directly or indirectly) have an interest of 30% or more.

DEALINGS IN SECURITIES

The Group has adopted an internal code which prohibits the directors and executives of the Group from dealing in the Company’s shares during the periods commencing two weeks and one month prior to the announcement of the Group’s quarterly and full year results respectively and ending on the date of the announcement of the results, or if they are in possession of unpublished price-sensitive information of the Group. In addition, directors and key executives are expected to observe insider trading laws at all times even when dealing in securities within the permitted trading period.

NOTES

1. A member entitled to attend and vote at the Meeting is entitled to appoint one or two proxies to attend and vote in his stead.
2. Where a member appoints more than one proxy, the appointments shall be invalid unless he specifies the proportion of his holding (expressed as a percentage of the whole) to be represented by each proxy.
3. A proxy need not be a member of the Company.
4. A member should insert the total number of shares held. If the member has shares entered against his name in the Depository Register (as defined in Section 130A of the Companies Act, Cap. 50 of Singapore), he should insert that number of shares. If the member has shares registered in his name in the Register of Members of the Company, he should insert that number of shares. If the member has shares entered against his name in the Depository Register and registered in his name in the Register of Members, he should insert the aggregate number of shares. If no number is inserted, this form of proxy will be deemed to relate to all shares held by the member.
5. The instrument appointing a proxy or proxies must be deposited at the Company's registered office at 50 Cuscaden Road #08-01 HPL House Singapore 249724 not less than 48 hours before the time set for the Meeting.
6. The instrument appointing a proxy or proxies must be under the hand of the appointor or of his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its common seal or under the hand of its attorney or a duly authorised officer.
7. Where an instrument appointing a proxy is signed on behalf of the appointor by an attorney, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
8. Agent Banks acting on the request of CPF Investors who wish to attend the Meeting as observers are requested to submit in writing, a list of details of the Investors' names, NRIC/Passport numbers, addresses and numbers of shares held. The list, signed by an authorised signatory of the Agent Bank, should reach the Company Secretary, at the registered office of the Company not later than 48 hours before the time appointed for the Meeting.

GENERAL

The Company shall be entitled to reject a Proxy Form which is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified on the Proxy Form. In addition, in the case of shares entered in the Depository Register, the Company may reject a Proxy Form if the member, being the appointor, is not shown to have shares entered against his name in the Depository Register as at 48 hours before the time appointed for holding the Meeting, as certified by The Central Depository (Pte) Limited to the Company.
